Petronet LNG seeks early recovery of Qatar cargo

Petronet LNG Ltd (PLL) is in discussion with Qatar to recover pending liquefied natural gas (LNG) cargo earlier than the contractual recovery period, as disruptions in West Asia have sharply curtailed deliveries, said Managing Director and Chief Executive Officer Akshay Kumar Singh.

Speaking at a post-results media briefing, Singh said out of the roughly 75-80 cargoes expected during the eight-month disruption period from March to October 2026, only about six cargoes have arrived. Deliveries under the current Qatar supply arrangement have been severely affected by force majeure disruptions since March 2026.

Under normal circumstances, the company receives around 9-10 LNG cargoes a month from Qatar, with each conventional cargo carrying approximately 138,000 cubic metres of LNG, he added. OUR BUREAU

Petronet Hit With ₹625-cr Claim Over Idle Qatar LNG Ships

Our Bureau

New Delhi: Owners of three LNG vessels engaged by Petronet LNG to bring gas from Qatar have initiated arbitration proceedings against the company to recover dues of ₹625 crore plus taxes, after the ships remained largely idle due to disruptions caused by the Iran war.

The vessels, Disha, Raahi and Aseem, operate under long-term charter agreements with India LNG Transport Company (No.1), India LNG Transport Company (No.2) and India LNG Transport Company (No.3), respectively. Their operations have been suspended since March 2, except for one vessel that was used for about seven days in June.

The claims, including associated costs, stood at ₹89.30 crore as of March 31 and rose to ₹625.42 crore by September 30, according to Petronet LNG's disclosure in its earnings statement.

Petronet LNG is contesting the claims.

Petronet LNG on Monday reported a 53% rise in profit to ₹1,235 crore for the July-September quarter, even as revenue from operations fell 35% to ₹7,200 crore.

Petronet in talks with Qatar for delivery of delayed LNG cargoes

New Delhi: India's top gas importer Petronet LNG is in talks with Qatar to secure delivery of some of the at least 90 liquefied natural gas cargoes delayed chiefly by the West Asia crisis, said the company's chief executive officer A.K. Singh. Qatar, India's largest LNG supplier, has a contract to supply Petronet with 7.5 million metric tons of the fuel annually, equivalent to about 9-10 cargoes a month. However, 75-80 cargoes under the existing contract have been delayed so far by the war in the Middle East, Singh said, in addition to 15-16 cargoes not delivered in 2015-16 due to pricing disputes. **REUTERS**
